I heartily endorse designating the Hanford Reach on the Columbia River a wild & scenic stretch and keeping the area under federal control. By releasing that area for local governmental units to decide how it is used would open this pristine area - the White Bluffs Sta. - to development. Already some relocation is occurring from agriculture on the Walla Walla Slope. Since this is all federal property there would be no loss to private property. It's a great recreational area. It's, more importantly, a salmon spawning resource.
